

HD120 M5259/3-01*

Large Gage Hydraulic Crimp Tool

The HD120 (M5259/3-01) is a hydraulic crimp tool designed to use interchangeable MS23002-XX dies (for insulated lugs), MS90485-XX dies (for uninsulated lugs) and MS25442-XX dies (for aluminum lugs). It has a two stage hydraulic system with automatic pressure relief to prevent over compression and automatic die retraction after the crimp cycle, minimizes the number of handle closures needed to complete the crimp.

This tool is equivalent to DMC's TBHD1M (MS25441-1) remote hydraulic head and DMC's HDE120C battery powered hydraulic crimp tool, with the added benefit of being self-contained and allowing users the flexibility to service aircraft without compressed air.

REDESIGNED FOR

STRENGTH

LONGEVITY

FEATURES

- 360° rotating head for ease in confined work areas
- Disengage dies with pressure release lever
- Ergonomic handle grips

CRIMP CAPABILITIES

- 8 to 4/0 AWG
- Max. Crimp Force: 12 Tons (106 kN)

SPECIFICATIONS

- Length overall: 21.3 (in)
- Weight: 14.6 lb (6.62 kg)

*Contact DMC for QPL status

MANUAL AND PNEUMATIC VERSIONS ARE ALSO AVAILABLE
