

SUPERIOR TOOLING SOLUTIONS

DMC® tools have provided complete wire harness solutions for mission-critical, high performance industries including military and commercial aviation since 1949.

The DMC1554 kit supplies your staff with multiple CS jam nut sockets designed to secure jam nut receptacles of various sizes while minimizing compression on connector sealing rings. CS jam nuts are equipped with drive holes to accommodate drive wrench handles and are ideal for non-torque applications. The stainless steel composition improves longevity and minimizes corrosion, offering a reliable investment for operators dealing with crowded panels or bulkheads.

TOOLS FOR SUCCESS

- Precision tooling to meet the demands of high reliability electrical systems
- U.S.A. with high-quality materials

PACKAGING THAT MAKES SENSE

- Contents Charts for efficient tool control and accountability
- Custom-fitted cases that are both durable and portable

KIT CONTENTS

- 12 Jam Nut Sockets (Sizes 0.760 to 2.640)
- 3 Drive Wrench Handles

KIT CONSTRUCTION

- 1 Black Polypropylene Copolymer Case
