

DMC12B GENERAL PURPOSE M83521/6-01 TOOL KIT

DMC12B General Purpose M83521/6-01 TOOL KIT

DMC's General Purpose M83521/6-01 contains the M22520/1-01 and M22520/2-01 crimping tools as well as their basic accessories for crimping removable contacts used in electrical connectors.

It is not a cost effective use of the time of your technical staff to start from scratch and try to become intimately knowledgeable about which precision tools must be used to repair each electrical connector, contact and terminal. The DMC12B kit supplies your staff with both the information and the tools necessary for MIL-C-26500 and MIL-C-38300 connectors.
