

DMC2315

HX4 Tool & MIL-Spec Die Sets (42)

For Electrical Connectors and Wiring Systems

The DMC2315 Tool Kit contains the HX4 (M22520/5-01) and die sets that accommodate most Coaxial and Triaxial connectors conforming to MIL-DTL-39012 and MIL-DTL-39029. Other applications include insulated and uninsulated terminals, wire splices, and end caps such as M81824 and M7928.

The DMC2315 kit supplies your staff with the accessories necessary to use your HX4 (M22520/5-01) tool for crimping.

Type of Inserts: Unicellular Polyethylene Foam with Die Cut Tool Cavities

Type of Construction: Black Polypropylene Copolymer Case

Number of Cases: One
