

ADJUSTABLE MIDDLE-RANGE 8-INDENT CRIMP TOOLS

The MH860® (qualified to AS22520/7) indent crimp tool provides added versatility by supporting the most widely used wire sizes in both the AF8 and AFM8. The MH860 may be used in a variety of applications with interchangeable 86-type positioners. It is identifiable by its unique green tool frame.

32 to 16 AWG

M22520/7-01

G145 Go/No-Go Gage

QPL Approved

86-type positioners are designed to adapt the MH860 to a variety of contacts. The data plate on each positioner designates which contacts the positioner accommodates and the selector setting for each wire size. The positioner is easily removed and changed.

7.5" L x 2.4" W x 0.8" H and weighs 10 oz.

OPTIMIZED SOLUTIONS

Enhance your tool's functionality with the added benefit of a cycle counter. This feature is designed to keep track of the number of cycles a tool has performed which aids in efficient tool management.

Cycle Counter

MH860-CC

Track tool usage and plan maintenance and calibration

Monitor cycles to ensure process control

7.5" L x 2.4" W x 1" H and weighs 11 oz.

DMC also offers air-powered tools that fulfill the same crimp requirements as the manual tool. Air-powered tools are suitable for high-production environments.

Pneumatic

WA22P

Perfect for bench-mounted operations with BM-2A

Easily adapted for foot operated use with WA10A

WA27F OPTIONAL CONFIGURATIONS

Side Selector	WA22PSS
Cycle Counter	WA22P-CC
Side Selector and Cycle Counter	WA22PSS-CC
Automatic Positioner Crimp System	WA22PQA

8" L x 2.3" W x 2.4" H and weighs 2.2 lbs.

ADJUSTABLE MIDDLE-RANGE 8-INDENT CRIMP TOOLS

DMC offers kits containing tools, gages, and accessories for many of our tools. Contrasting shadow-cut foam eliminates lost tooling and increases the lifespan with a dedicated location for every tool. Consult DMC for all kit options.
