

ADJUSTABLE LOWER-RANGE 8-INDENT CRIMP TOOLS

The AFM8® (qualified to AS22520/2) is a miniature adjustable crimp tool that creates military standard 8-indent crimps for smaller wire sizes. This tool is precisely engineered to ensure maximum tensile strength and conductivity. The ratchet and 8 selector settings guarantee an accurate and reliable crimp every time.

32 to 20 AWG

M22520/2-01

G125 Go/No-Go Gage

QPL Approved

K series positioners are designed to adapt the AFM8 to a variety of contacts. The data plate on each positioner designates which contacts the positioner accommodates and the selector setting for each wire size. The positioner is easily removed and changed.

The AFM8 is approx. 7.5" L x 2.4" W x 0.8" H and 10 oz

OPTIMIZED SOLUTIONS

Enhance your tool's functionality with the added benefit of a cycle counter. This feature is designed to keep track of the number of cycles a tool has performed which aids in efficient tool management.

Cycle Counter

AFM8-CC

Track tool usage and plan maintenance and calibration

Monitor cycles to ensure process control

7.5" L x 2.4" W x 1" H and 11 oz.

DMC also offers air-powered tools that fulfill the same crimp requirements as the manual tool. Air-powered tools are suitable for high-production environments.

Pneumatic

WA22

Perfect for bench-mounted operations with BM-2A

Easily adapted for foot operated use with WA10A

8" L x 2.3" W x 2.4" H and 2.2 lbs

Pneumatic

WA22-LC-X1

Compact and lightweight for handheld or bench-mounted operations

Ideal for terminations on vertical and horizontal wiring boards

8" L x 2.3" W x 2.1" H and 1.9 lbs

WA22 OPTIONAL CONFIGURATIONS

Side Selector	WA22SS
Cycle Counter	WA22-CC
Side Selector and Cycle Counter	WA22SS-CC
Automatic Positioner Crimp System	WA22QA

ADJUSTABLE LOWER-RANGE 8-INDENT CRIMP TOOLS

DMC offers kits containing tools, gages, and accessories for many of our tools. Consult DMC for all kit options.
